SUBJ UPDATE: Positive Test Result Received Today
for One Smith Crossing Employee

On Monday afternoon, we received a positive test result for COVID-19 for one Smith Crossing employee, who now is recovering at home. During the past weekend, this person wore a face mask when working in the assisted living and skilled nursing care wings.

According to new guidelines for long-term care facilities published by Illinois Department of Public Health, we inform you when we receive notice of one or more confirmed infections of COVID-19.

Smith Crossing continues to follow all guidelines

We have established a designated area in our community for COVID-19 positive residents as recommended by the CDC and local health authorities. Our staff wears full-PPE, including gowns, masks, goggles and face shields, which they discard upon leaving a room. These are just a few of the many guidelines that Smith Crossing follows to protect the safety and well-being of all residents and staff members.

Please be confident we continue to follow all the protocols and practices directed by the Centers for Disease Control and Prevention, the Illinois Department of Public Health and the Centers for Medicare and Medicaid.
